### 4.1 Corporate Asset Management Plan – Core Assets

Rick Chalmers, Supervisor, Infrastructure and Asset Management, provided a presentation overviewing the contents of the report and the recommendations contained therein. R. Chalmers discussed background information, key legislated dates, regulation requirements, core infrastructure assets including roadways, bridges, major culverts and stormwater management, state of the Town's infrastructure, levels of service, risk management framework, financial impacts, funding strategies, and next steps.

Committee members asked questions regarding stormwater pond inventory and average age, stormwater pond inspection and maintenance requirements, introduction of a stormwater levy, risks associated with non-compliance of regulatory requirements, mechanisms to track natural assets, service level costs, timelines associated with

inclusion of non-core assets into the asset management plan, climate change impacts, opportunities to integrate natural assets into the Town's asset management plan, status of Carruther's Creek, and requirements to have developers dredge stormwater ponds prior to assumption by the Town. Dave Meredith, Director of Operations & Environmental Services, R. Chalmers, Dianne Valentim, Director of Finance/Treasurer, and Geoff Romanowski, Director of Planning & Development Services, responded to questions from Committee Members.

### 4.2 **Asset Management Council Workshop**

R. Chalmers introduced Aman Singh, Senior Partner, SLBC Advisory Group, who delivered a presentation on the Town's asset management plan. A. Singh discussed asset management benefits and requirements, state of the Town's infrastructure, levels of service, risk management, lifecycle management, and funding analysis.

Committee Members asked questions regarding low and high criticality assets, and recommended target and current reinvestment rates. A. Singh and D. Valentim responded to questions from Committee Members.
